Professional Summary

Product-focused Developer and Team Lead specializing in Rapid Prototyping ("Vibe Coding") and AI-integrated applications. Expert at building high-performance web platforms leveraging client-side execution (WASM) and Generative AI. Proven ability to lead cross-functional teams and deliver production-ready solutions under tight deadlines.

Technical Skills

- Frontend: JavaScript, Tailwind CSS, ShadCN UI, Monaco Editor
- AI & Backend: Google Gemini 2.5 Flash, Firebase Genkit, Pyodide (WASM), Firestore, Authentication, DBMS
- Methodologies: Vibe Coding (AI-assisted development), Agile Leadership, UI/UX Design
- Other: Advanced Linux (Ubuntu) optimization, Shell customization, Responsive design, Performance optimization

Professional Experience

GDG On-Campus (GDGOC) | UI/UX Team Member

- Translated complex feature requirements into intuitive, high-performance interfaces.
- Led design-to-code sprints; collaborated to establish design systems and component libraries.
- Mentored junior developers on modern UI/UX best practices.

Smart India Hackathon (SIH) – Internal Hackathon | Team Lead

- Spearheaded a cross-functional team to build national-level prototypes under strict deadlines.
- Implemented Vibe Coding workflows, accelerating development by 50%.
- Managed project scope, timelines, and stakeholder communication.

Featured Projects

FlowPost – AI-Powered Content Repurposing Platform

- Built a platform converting Markdown into LinkedIn carousels, Twitter threads, and newsletters.
- Engineered a producer-worker architecture using Next.js API routes and FastAPI.
- Stack: Next.js, FastAPI, Redis, BullMQ, PostgreSQL, OpenAI, Anthropic.

VORT-X – Professional Gamer Network

- Developed a full-stack social hub with Instagram-style activity feeds and tournament management.
- Integrated Firebase Genkit for intelligent gamer discovery and AI-powered recommendations.

EDUCATION & COMMUNITY

- B.Tech in Computer Science | Dr. A.P.J. Abdul Kalam Technical University, Lucknow
- B.S. in Data Science and Applications | Indian Institute of Technology, Madras (IITM)
